SALES

BEAUTY /
HAIR / NAIL
SALONS &
BARBERSHOP

SHOPPING
CENTERS /
MALLS

ELECTIVE
MEDICAL AND
DENTAL
PROCEDURES /
TREATMENTS /
THERAPIES

FAQ #2

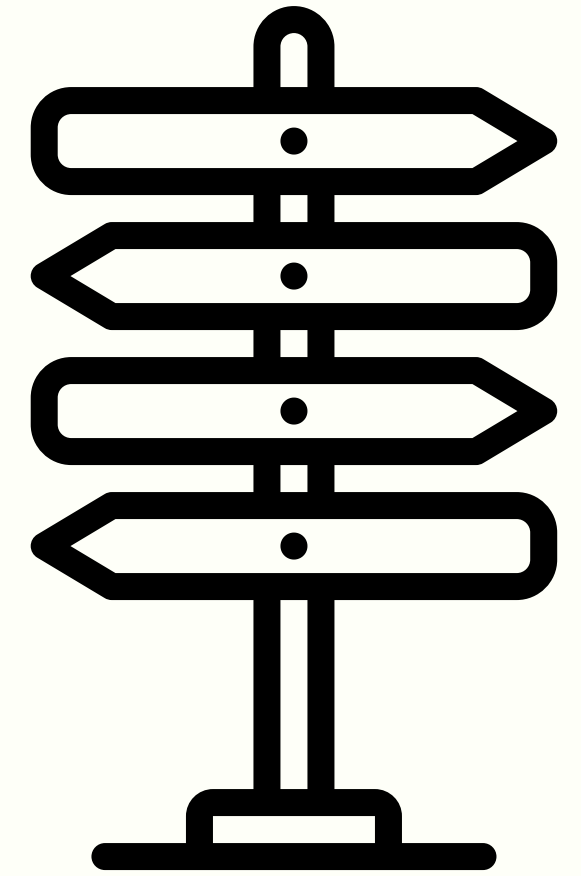

IS MAY 11TH THE DATE FOR REOPENING?

This date could change (based on medical triggers); however, if the desired trends stay on target, then May 11th is a target date at this point in time.

FAQ #3

WHAT DOES A BUSINESS NEED TO HAVE IN PLACE TO OPEN?

Businesses must work with its industry representatives and/or Chambers of Commerce to collectively submit an industry-specific plan to ensure social distancing, workplace preparation, and other procedures and submit such plan to the DPHSS.

FAQ #4

WHAT IF MY BUSINESS DOESN'T FALL UNDER THE PCOR 2 SET TO RE-OPEN? CAN I APPEAL TO GET MY BUSINESS OPEN?

There is no formal appeal process if a business is not identified to open initially upon PCOR 2.

In anticipation of a possible future authorization to open, businesses should work with their industry partners and / or the Chambers of Commerce to prepare in the event of such authorization at some point during PCOR 2 or PCOR 3.

FAQ #5

DO I NEED TO HAVE SANITARY AND OPERATION GUIDELINES REVIEWED AND APPROVED PRIOR TO OPENING?

- The submission of guidelines by businesses that are not initially authorized to open during specific PCOR phases will not guarantee a decision to allow them to open.
- For identified industries (i.e. retail), all they would have to do is submit industry guidelines to DPHSS.
- DPHSS is not going to be expected to approve guidelines.

FAQ #6

IF SO, WHO APPROVES THE GUIDELINES AND WHAT IS THE TIMELINE OF WHEN MY BUSINESS WILL HEAR BACK?

- Because there is no appeal process, even if an industry or business that wasn't initially identified to open upon declaration of PCOR 2 submits guidelines, there is no guaranteed timeline in place for a decision.
- The decision will be made on a case-by-case basis and depending on what the medical data reflects over the coming weeks, a decision could be made to authorize additional activities.

FAQ #7

WHO REGULATES OR CONDUCTS INSPECTIONS TO ENSURE BUSINESSES ARE FOLLOWING GUIDELINES?

- DPHSS & Department of Revenue & Taxation will provide inspections.
- Although the public is not a regulator, if customers witness any general guidelines not being followed (employees not wearing masks/washing hands), they can report to 311.

FAQ #8

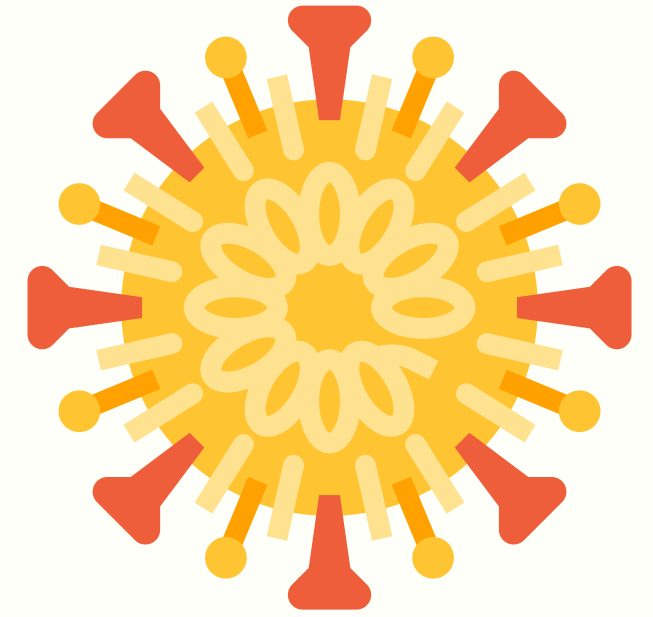

WHAT HAPPENS IF A BUSINESS DOES NOT FOLLOW THE GUIDELINES? (I.E. FINES, ETC.)

Currently, there is not a specific penalty in place; however, it is best practice for businesses to abide by sanitary guidelines and to promote confidence of the industry and the safety of employees, customers, and the community at-large.

FAQ #9

**WHAT HAPPENS IF MORE COVID-19 TESTS ARE REPORTED?
WILL I HAVE TO SHUT DOWN AGAIN?**

- Businesses should follow government mandates.
- Businesses should comply with all sanitary requirements to help reduce the spread of COVID-19.
