

## **Important Announcement: Guam Financial Management Information System (GFMIS) URL Transition**

**We are excited to announce an upcoming transition aimed at improving consistency and user experience within the GFMIS system!**

### **What's changing?**

- All GFMIS system production URLs, including links to the ERP-Account, Budget, Data Warehouse, Payroll, HR, and Grants systems, will be transitioning to the guam.gov domain.

### **Why the change?**

This change aligns GFMIS URLs with the official government domain, promoting uniformity across platforms.

### **What to expect:**

- Over the next few weeks, you may encounter automatic redirects when using existing links. These redirects will ensure uninterrupted access during the transition.
- By November 1, 2024, access through the old links will be discontinued.

### **What you can do:**

- We recommend updating any saved bookmarks or shortcuts for GFMIS systems to reflect the new guam.gov URLs. This will ensure continued smooth access after the transition.

### **Stay tuned!**

We will provide further details on the updated URLs in a follow-up announcement.

**Thank you for your cooperation!**
